

Environmental Consciousness and Sustainability

7.1.2 The Institution has facilities for alternate sources of energy and energy conservation measures

Solar Energy and Use of LED bulbs in Classrooms

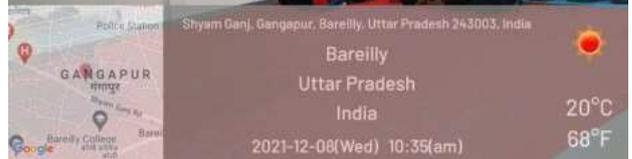

- The college has installed LED bulbs in classrooms
- “Save energy” initiative is taken by the students’ union to make students aware by making them switch off lights and fans before leaving the classroom. •
- The College has initiated the promotion of alternate energy sources by installing solar panels for our energy consumption. Though it is a quite minimal percentage of our total power requirement but definitely the college plans to increase the other renewable sources in future.

Solar Panels for Lights in Campus

Classrooms, Labs, Conference hall, Practical Rooms with LED lights
